# INTRODUCTION

BY MIKE VAN EATON

It is a pleasure to present you our latest exhibition and auction, "It Came from... Van Eaton Galleries!" This auction contains a wonderful assortment of artifacts spanning the past 100 years of popular culture, entertainment, and Disney history. As you look through these pages, I'm sure you'll find a piece of pop culture history that resonates with you.

This auction would not have been possible without the dedicated collectors and enthusiasts who have entrusted us with their treasured items and collections. I am truly grateful to each of our consignors for their unique stories and insights, which have helped to make this such an incredible offering.

There are a few individuals I want to thank specifically:

First, thanks are due to Nancy Cartwright for letting us offer her incredible personal collection of The Simpsons memorabilia. What truly impresses me about Nancy, in addition to voicing the 10-year-old Bart Simpson, is the incredible passion she has for important causes that are dear to her heart. Nancy is a founding member of the Know More About Drugs (KMAD) Alliance. The sale of her items in this catalog will benefit KMAD in their efforts to educate and inform parents and caregivers of the potentially harmful effects of prescription drugs. We are thankful to have the opportunity to help Nancy in raising awareness for KMAD, and to Nancy for entrusting us with the amazing mementoes from her legendary career. Nancy's items can be found in lots 310-337 of this catalog, and more info on Know More About Drugs can be found at [www.KnowMoreAboutDrugs.org](http://www.KnowMoreAboutDrugs.org).

I would also like to thank Linda Ondo for bringing us her incredible vintage sci-fi poster collection. Linda and her family inherited this magnificent collection after the passing of her cousin, David. When she brought her items in, we were hopeful there would be a few key pieces that could work in an auction setting. What we didn't expect was that seemingly every poster we uncovered would be rarer than the last! Titles including Forbidden Planet, The Day the Earth Stood Still, War of the Worlds, Creature from the Black Lagoon... the list just kept growing and growing. It was clear that Linda and her family had just inherited one of the greatest collections of sci-fi posters in private hands that we have ever encountered! We are thrilled to bring these rare posters to auction for fans of these historic titles to see for the first time, and to celebrate the care David put into curating his phenomenal collection. We are exceptionally grateful to Linda and her family for this opportunity.

Finally, I want to thank every reader of this catalog. Over the years, Van Eaton Galleries has made it our goal to bring you the highest quality auctions, exhibitions, and catalogs possible. A lot of work by our dedicated and talented staff, for whom I am also exceptionally thankful, goes into the creation of these auctions. But the effort would be all for naught, if not for you, the reader. Whether you've been with us since our very first auction or you're new to Van Eaton Galleries, welcome and thank you. I hope you enjoy perusing the items in this catalog as much as I have enjoyed working on it.

-Mike Van Eaton.

This genre-defining 1-sheet boasts both poetics and action, pairing a symbolic illustration of an alien hand gripping the planet with a dynamic composition depicting the death-ray-shooting robot, Gort, menacing a supine Patricia Neal while an Earthling army futilely burns through its munitions. Folded as issued, the poster measures 41"x27" and is in very good condition. There is 1" of the top blank border that is folded backwards, cello tape has been used on the reverse for reinforcement, there are small spots of separation and paper loss, light brown toning at the edges and in the top margin, and edge wear. Folded as issued, the poster measures 40"x20" (the top and bottom blank borders were trimmed so that the poster would better fit in a frame) and is in very good condition. There is a tiny 2.5" long vertical strip of loss from the top right edge, an extra vertical fold on either side, cross fold separation, cello tape repair to the bottom cross fold on the reverse, clean corner and side staple holes, a few dark spots in the borders, and small areas of browning to the extreme edges. The red and yellow inks used for movie posters of the era are known to be volatile and prone to fading, yet the colors on this classic poster remain breathtakingly bright and vibrant. (Universal/Realart, 1948/R-1956) A U.S. half-sheet poster for the 1956 Realart re-release of the Universal comedy horror classic, *Abbott & Costello Meet Frankenstein*. Posters from the re-release of this film are widely considered to be superior to those from the initial theatrical run, as the 1956 posters prominently depict the film's iconic monsters. Such is the case with this striking half-sheet, featuring large images of Glenn Strange as Frankenstein's Monster and Bela Lugosi and Lon Chaney in their signature roles as Dracula and the Wolfman. Interestingly, half-sheets from the Realart release of the film are also much rarer than those from 1948, as fewer theaters ran the movie. Only a small number of these rare posters have ever been sold at public auction, making this gorgeous large-format poster one of the scarcest styles not just for this film, but for any genre classic of the period. As the poster style suggests, the piece measures 40"x30". It has undergone sensitive professional restoration and presents beautifully with very faint creases and spots of discoloration. There are a few small black paint smears in "Planet" from the original silkscreening process (typical of such posters), some expected tan toning to the underlying paper from age, and faint brown spot discoloration to some of the plain paper elements including the tag line and billing at left. As with the discovery of a hyper-advanced alien civilization, opportunities to own one of the most sought after sci-fi posters in the galaxy rarely happen more than once a millennium. **\$7,000-\$10,000**

Constructed of sturdy styrene plastic with identical deco and decals to the Power of the Force version, the Falcon Extraordinaire is a direct tool-up of the toys produced by Kenner and Hasbro and represents the true size of the spacecraft scaled for 3.75" action figures. The ship has a brass plaque bolted to the top gunport engraved with the edition number, "500," and includes a dish antenna, top and bottom quad lasers, cable hanger (one cable is absent, though the metal anchor that supports the ship is included), and internal lighting elements designed to be powered by an AC adapter (an electrical port is present, but the piece does not come with adapter; the lights are untested). An estimated 700 Extraordinaires were produced for a tie-in promotion with the Star Wars Special Edition theatrical rereleases, though the true figure is unknown. Later, Toys 'R Us raffled off 500 of the surviving examples for charity. Interestingly, given the edition number, this would have been the final Extraordinaire awarded in the contest. The piece was never subsequently displayed, and retains the shipping box and a copy of the winner's agreement, as it was transmitted to the original recipient. Measuring 76.92"x53.85" and 15.38" deep, the piece is in very good condition with a minor dent in the styrene on the tail of the ship, and some wear to the rear sublight drive exhaust with a small scuff to the plastic and hole in the decal in the recessed area, and a small crack and chip in the bottom edge. Many of the decals have come loose over time. However, the vast majority appear to be present, and could readily be reattached. Truly one of the most impressive Star Wars toys ever created, the Extraordinaire is a holy grail for any Star Wars collector. An important genesis document for the most influential sci-fi series in pop culture history, this script is a drastic revision of the Second Revised Final Draft (dated 9/20/64) and consists of original typed rough draft pages dated 9/21/64 and 9/22/64, complete with x'd out and typed-over sections, hand corrections, and additional handwritten elaboration; undated mimeo pages, all of which are hand annotated, most with consequential revision in the form of alterations to stage directions, line redactions, dialog changes, additions, and omissions, and scene renumbering; and inserted pages Frankenstein'd from stapled-together snippets of mimeo pages with additional hand-written content. The mark-ups were either done by Gene Roddenberry, himself, or under direct consultation from the sci-fi visionary, and as such, provide unique in-depth insights into his creative process and the evolution of his conception of the characters and the series. At this stage, the captain of the Enterprise is still named "Robert April" and the script refers to Rigel 113 rather than Rigel VII, Dr. Boyce is still merely "ship's doctor," and a Renaissance Bedroom is included on the set list, which disappears from subsequent drafts. The Cage would undergo further revisions before cameras rolled on November 27, 1964, but few surviving artifacts from production chronicle the process and scope of a painstaking overhaul and meticulous like the master script offered here. Measuring 11"x8.5", the piece is in good condition with foxing to the edges of the cover, head, foot, and fore-edge, and some spot staining to the interior pages from the revision process. # THE NANCY CARTWRIGHT COLLECTION OF "THE SIMPSONS" MEMORABILIA

The following items (Lots 310 to 337) are from the personal collection of Nancy Cartwright, the Emmy-winning voice of Bart Simpson. The sale of these items will benefit the Know More About Drugs Alliance and their efforts to help parents and caretakers make educated decisions concerning prescription drugs.

Nancy Cartwright has lent her acting talents to a myriad of modern animated classics, live-action films, video games, radio productions, and commercials. An accomplished painter and sculptor, her work is exhibited in the permanent collections of the News Corp. Building in downtown Manhattan and the University of Southern California. However, Cartwright's passions aren't limited to the arts. She is an active and generous philanthropist, as well as a founding member of the Know More About Drugs Alliance.

The Know More About Drugs (KMAD) Alliance comprises medical experts, consumer drug safety representatives, and award-winning documentary filmmakers who have investigated the harmful effects of prescribed psychotropic (mind-altering) drugs and synthetic opioids (pain relievers) on children and teens. The Alliance also includes parents whose children were severely damaged from being prescribed such drugs, and who were not informed of the documented risks before agreeing to administer them to their children.

KMAD does not give parents medical advice; rather its goal is to make them aware of information that the U.S. Food and Drug Administration (FDA) provides on prescription drug risks. In this way, parents can ascertain which drugs can lead to drug dependence, addiction, and other serious adverse events (side effects). Armed with FDA-approved information, parents can have an educated conversation with their child's doctor, and voice any concerns before making any decision regarding their care.

Nancy describes the origin of KMAD and the importance of their mission,

"I'm a mother and a grandmother, so much of my world revolves around children. And like many of you, I am concerned about the prescription drug epidemic in our country and how it's affecting our kids. We're all aware of the news headlines depicting the harm caused to our children by prescription opioids and other psychotropic drugs. Those headlines affected me so much, that I started creating art to express how I felt. In fact, the situation affects us all.

I wanted to do something about it, so I started an organization to help parents get the information they needed to make educated choices. And this starts with informing them about the FDA Medication Guides. These Med Guides forewarn parents about any risk factors involved in taking these prescription drugs, including their potential for drug dependence and other serious side effects. This is something every parent needs to know.

According to the Center for Disease Control, 11 of the top 15 drugs causing overdoses in America are prescription opioids and psychotropic drugs. And all of these drugs are being prescribed to children. Even though the subject can be difficult to face, I think it is vital that we shine a light on what can happen to kids when parents are uninformed.

Knowledge is power, and every parent has the right to know more about drugs."

This is the only such example of this rare "Fantasyland" Alice in Wonderland poster that we have ever seen offered for public sale. Most attraction posters that still survive today were never actually installed for use within Disneyland, however this particular poster was mounted within its frame and used within the park. The back of the board is cracked. Interestingly, to help reduce the amount of silkscreening needed on these posters, some of the white in Alice's face was actually just the color of the poster paper showing through, instead of a silkscreen layer. As such, this park-used poster, which was adhered in its park-used frame for several decades, had someone browned in those white paper areas. Some color restoration of the white in Alice's face has been professionally done, which creates a gorgeous display. When the park opened in 1955, Tomorrowland was the least completed section of the park. In an effort to fill in gaps and introduce some variety to the land, which was primarily space-themed, Walt had his Imagineers install original sets and props from his 1954 Sea-Fi epic, 20,000 Leagues Under the Sea, into a walkthrough exhibit that simulated the experience of riding on Captain Nemo's proto-steam punk submarine. Never intended as a permanent feature, the attraction closed in 1966 despite its popularity with guests, who were afforded a chance to take an up-close look at Hollywood movie magic. Reference material for this opening day spectacle is exceedingly rare, with a mere handful of images available online. This collection is far and away the largest body of material we've ever encountered on the attraction. Consisting of (8) vintage gelatin silver 8"x10" single-weight glossy photos, all of which retain WDP ink stamps and hand written numeric codes on the reverse, (11) later 35mm contact sheets on 8"x10" RC paper, and (20) later 2.25" contact sheets on 8"x10" RC paper, the images in this archive chronicle virtually every aspect of the Nautilus exhibit, including all the iconic sets and props, from the 11' model of the ship, to the giant squid outside the porthole, Nemo's organ room with the actual screen used instrument, stylized dive suits and Underwater Electric Pellet Guns, and much, much more. Given that the contact sheets all feature many exposures, the lot actually contains over 500 unique images of the attraction, captured for internal documentary/reference purposes. A better resource to the composition and actual look and feel of this "lost" attraction is difficult to imagine. The photos are assembled in a 10"x11.5" binder and remain in very good to fine condition, with minimal handling wear. **\$2,000-\$4,000**

It was here that he would build his "East Coast Disneyland," and it was here that he envisioned his "Experimental Prototype Community of Tomorrow." **TERMS AND CONDITIONS OF AUCTION**

1. This auction is presented by Love of Art, LLC. The auction is conducted under the terms and conditions set forth herein and applicable state and local laws. Announcements on the day of auction, whether printed or announced from the podium, shall supersede those in the printed catalogue.
2. **Buyer's Premium:** All bids are subject to a Buyer's Premium which shall be added to all placed successful bids.
3. **Bidders and Buyers Bound:** All persons placing bids, participating or registering in the auction agree to be bound by, and accept, the Terms and Conditions of the auction.
4. **Qualification:** All Bidders must meet auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the auctioneer may be disqualified at auctioneer's sole option and will not be awarded any lots. Such determination may be made by the auctioneer in his sole and absolute discretion prior to, during, and after the close of any auction.
5. **Exclusion:** The auctioneer reserves the right to exclude any persons of entity: (a) from bidding, or (b) from the floor of the auction on the day of sale.
6. **Guaranty:** If any entity places any bid, then the individual actually placing the bid shall guaranty payment for any successful bid.
7. **Credit:** Bidders shall establish credit with the auctioneer prior to placing bids. Auctioneer shall be the sole determiner of whether or not credit of any Bidder is satisfactory to auctioneer. If Bidder is not known to auctioneer, a proposed Bidder shall furnish satisfactory credit information ("SCI") at least five business days prior to the auction. Such SCI shall include two credit references, a social security number, and appropriate credit card information. Auctioneer reserves the right to make a credit check of any proposed Bidder and such Bidder consents to the making of such a credit check. The acceptance of checks is in the auctioneer's sole discretion and may be based on a variety of criteria, such as a credit bureau report, a bank check, or otherwise. The auctioneer will accept, up to five business days prior to the date of the auction, deposits for bidding, if the check is a local check; or up to 10 business days before deposit if the check is not a local check. Such deposits will be kept in an attorney's trust account, and shall not be applied to any payment absent a successful recognized bid. Those bidding on the Internet must pre-register at least one business day before the auction and bids will not be accepted if pre-registration has not occurred.
8. **Bidding Procedures by Mail or Fax:** All mail or fax bids shall be signed.
9. **Bidding Increments:** The bidding increments shall be utilized as specified in Paragraph 15; and if any bid does not so conform, the bid will be lowered to the highest increment lower than the mail bid. Non-internet bids (such as, for example only, bids from the podium, fax, mail, or telephone bids) shall be treated similarly to floor bids in that the bidding increments shall be utilized; and if the bid does not so conform, the bid will be lowered to the highest increment that is lower than the bid. Any Bidder may once in an auction for a particular lot bid a "half-increment". Once a "half-increment" bid is accepted no other half-increment bids will be accepted on that particular lot. No "buy" or "unlimited" bids will be accepted. Notwithstanding anything to the contrary herein the auctioneer may solicit or accept bids that are not incremental in nature.
10. **Identical Bids:** Preference will be given to the bid first received.
11. **Execution of Bids by Auctioneer:** Auctioneer is not responsible for errors in your bids. CHECK YOUR BIDS BEFORE SUBMITTING THEM TO THE AUCTIONEER. Auctioneer is not responsible for any failure in executing mail or fax bids received on the day of the auction or later. All written bids should be received two business days before the auction. Auctioneer is not responsible for proper execution of bids submitted by telephone, mail, FAX, email, Internet, or in person, once the auction begins. Electronically placed bids may not be withdrawn.
12. **Technology Failure:** In the event that auctioneer experiences an outage of the Internet, or telephone service the auctioneer may extend the time for bidding on any lot in the auction. The auctioneer reserves the right to "take a break" for any reason during the course of the auction.
13. **Delivery of Lots:** Lots won by Bidders will not be delivered on the day of the auction. All items must be shipped, or they will be held for pick-up at a time when deemed permissible by local regulations pertaining to the Covid-19 virus.

**18. Minimum or Nominal Bids:** The auctioneer will set a minimum bid before a lot can be sold. Bids below the minimum bid may not be accepted or recognized by the auctioneer. Further, nominal bids, or small opening bids, or very nominal advances in the bidding may not be recognized by the auctioneer, in its sole discretion. Any lot not receiving any recognized bid shall be passed.

**19. Winner of Lot:** The highest qualified bidder recognized by the auctioneer shall be the Buyer. In the event of a tie bid, the bid received first by the auctioneer shall prevail. If there is a dispute among Bidders, the auctioneer may in his sole and absolute discretion re-offer the lot. There are times when a bid may not be recognized by the auctioneer; in that situation the recognized bid will be the winning bid regardless of whether or not the competing, but unrecognized bid, may have been higher. The auctioneer may in his absolute discretion re-open the bidding immediately after closing a lot to accept any bid in error not previously recognized.

**20. Good Faith Bidding:** Auctioneer reserves the right to honor any bid or to limit the amount of any bid. All bids must be made in good faith. A bid is not made in good faith, if it is made by an insolvent or irresponsible person, a minor, or if made in excess of any applicable credit limit.

**22. Rescission of Sale of Lot:** Auctioneer reserves the right to rescind the sale of any lot in the event of non-payment, disputed ownership, clerical error, clerical omission in exercising bids and reserves, or for any other reason in the auctioneer's sole and absolute discretion.

**23. Lots Sold After Auction:** In some cases lots will be sold after the auction. The Terms and Conditions apply to those sales as well.

**24. Payment in Dollars:** All sales are strictly for cash; and payment must be made in United States Dollars.

**25. Amount of Payment:** All deliveries, and transfers of title, are subject to the full payment of all monies due for the lot, including the payment of the separate Buyer's Premium. The Buyer's Premium shall be 18% of the highest successful recognized bid for in-person, phone, or absentee bidding; 21% for bids placed through internet platforms. Auctioneer retains the Buyer's Premium as its own property.

**26. Payment Terms:** Payment is due upon the closing of the auction sessions, or upon presentation of an invoice. If payment in full is not received within (7) calendar days after the close of the auction, or within (5) calendar days of the invoice date, whichever is later, the auctioneer may in its sole and absolute discretion, void the sale. If the sale is voided for non-payment the successful bidder shall still owe the auctioneer its fees. Sales tax will be collected from any successful bidder unless the appropriate certificate is on file with the auctioneer at least five business days before the first date set for the auction. If the successful bidder chooses to send an "e-check", electronic funds transfer, or ACH payment, and it does not clear, the bidder authorizes the auctioneer to use the credit card on file. If payment is not made the auctioneer reserves the right to sell the lot to any under-bidder or in any future auction; any difference in the realized proceeds shall be the responsibility of the non-paying successful first bidder.
